TRADE LIST. 1892.

Orcutt Seed and Plant Company.

LOS ANGELES **CALIFORNIA** SAN DIEGO
Broadway Market Fifth and C Sts.

Cable Address: ORCUTT.

TERMS CASH, except by special agreement. All bills subject to sight draft.

ORDERS received too late for the season will be filled the succeeding season unless otherwise instructed. No substitutions made unless ordered.

NO GUARANTEE, expressed or implied, accompanies seeds sent out.

PACKAGES weighing four lbs. or less may be sent by express in the U.S. for thirty cents each. Packages by mail at purchaser's risk.

THE CLIMATE OF SOUTHERN CALIFORNIA, especially near the coast, is admirably adapted to the growing of seeds, bulbs and plants. The quality of California seeds is universally recognized as unsurpassed. Seedsmen and florists wishing California stock will do well to place their orders early, as we grow largely by contract.

NURSERY Fruit, and Ornamental Trees and Shrubbery, Palms, Ferns, Orchids and Cacti, in endless variety.

CUT FLOWERS carefully packed for Shipment. Roses of superior quality to order. Florists at a distance supplied.

SEEDS, a hundred varieties of California wild flower Seeds in papers. Choice and fresh California-grown flower seeds in great variety.

FLORAL Decorations and artistic designs prepared for any occasion. Charges always reasonable. Distance will not interfere.

LANDSCAPE Gardening, planting and care of places properly attended to. Best skill employed.

CUT FLOWERS.

Designs for funerals a special feature.

Smilax in full and long strings supplied.

Roses, Carnations, Callas, Violets and all choice cut flowers supplied in their season; especially Lilies, Freesias, Daffodils, Cyclamens, etc.

CUT FLOWERS—Continued.

Ferns, Palm leaves, Ivy, sprays of Asparagus, Egyptian Papyrus and other greens in profusion.

Orange blossoms at all times. Poinsettia heads 5 to 20 inches across.

Pampas Plumes, Ornamental Grasses, Teasels, etc.

Flowers and greens carefully packed for shipment to any place.

WILD FLOWER SEEDS.

We offer over one hundred varieties of seeds of species native to California and the West, put up in packets at \$2.50 per 100, or \$25.00 per 1000 papers.

<i>Echinocactus cylindraceus</i> . Beautiful.....	.50 to 1.00
<i>Lecontei</i>50 to 1.50
<i>viridescens</i>25 to 5.00
<i>Phyllocactus Latifrons</i> . A very strong growing species, quite the giant of its family, producing stout, flattened stems, 4 to 5 inches broad, deeply crenated, and 8 or 10 feet high. The flowers, which bloom at night, seem to share the dimensions of the plants, for they measure 7 [to 9 inches across; the petals are of a delicate creamy white; the sepals and tube of a reddish hue.....	.50 to 1.50
<i>Echinopsis Mulleri</i> . The most valuable <i>Echinopsis</i> , on account of its rapid growth, and because it blooms when only two years old. Flowers double, satiny rose in color, very beautiful. Per dozen, \$1.50 to \$3.00.....	per 100, \$10.00 to \$20.00
<i>E. Eyriesii</i> . Well known species; neat in shape and free bloomer; flowers 6 to 8 inches long, like a curved funnel, white, and very fragrant. This plant produces many offsets that soon make nice little specimens, and the plant is very interesting in appearance. Each.....	.25 to 1.50
<i>Stapelia Variegata</i> . Bears beautiful flowers, having a leathery texture; buff yellow, with maroon markings; blooms when quite small; maroon flowers, covered with fine hairs. These curious flowers resemble a star fish. Not a true cactus, but popularly known as Toad Cactus.....	.10 to .25

“ <i>gracilis</i>	“	5.00
“ <i>ernesti-augusti</i>	“	8.00
“ <i>schiedeana</i>	“	4.00
<i>Oreodoxa regia</i>	“	10.00

Other varieties expected from our collectors.

WEST AMERICAN FERNS.

The ferns of Southern California are especially noted for their beauty and grace. We collect the roots of these in the summer, when nearly all are perfectly dry, and they are then sent by mail or express in that condition. They require careful treatment, but are well worth attention. It is impossible for us to secure all the following species every year; those marked with an asterisk (*), however, are especially recommended and can generally be supplied with promptness.

	Per 100
* <i>Adiantum emarginatum</i> —Can be sent either dry or in a growing state	\$ 6.00
* <i>Aspidium munitum</i> —Can be sent only in a growing condition..	15.00
* <i>Asplenium trichomanes</i> var. <i>incisum</i> —Feather fern. Choice..	10.00
* <i>Cheilanthes Californica</i> —Lace fern. Exquisite	10.00
<i>Cheilanthes Clevelandi</i> —Cleveland's Lip fern	9.00
<i>Cheilanthes gracillima</i> —Graceful Lip fern	5.00
<i>Cheilanthes viscida</i> —Desert Tea fern	10.00
<i>Cheilanthes myriophylla</i> —Fendler's Lip fern	10.00
* <i>Gymnogramme triangularis</i> —California Gold fern	4.00
* <i>Gymnogramme triangularis</i> var. <i>viscosa</i> —Silver fern	4.00
<i>Notholaena cretacea</i> —Formerly known as <i>N. candida</i>	10.00
* <i>Notholaena Newberryi</i> —Cotton fern. Very pretty	6.00
<i>Notholaena Parryi</i> —Dr. Parry's cloak fern. Colorado Desert, rare	20.00
* <i>Pellaea andromediaefolia</i> —Cliff brake. Wire fern	6.00
<i>Pellaea densa</i> —A pretty alpine species, three to six inches in height; abundant in Yosemite Valley	6.00
* <i>Pellaea Ornithopus</i> —Tea fern. Easily grown	4.00
<i>Pellaea Breweri</i> —An alpine species, growing six inches or less in height, in clefts of rocks	6.00
<i>Phegopteris alpestris</i> —A fine alpine species attaining a height of two feet, from Oregon	10.00
<i>Polypodium Californicum</i> —Californian polypody Large	5.00
<i>Woodwardia radicans</i> —Chain fern. The immense fronds of this luxuriant fern sometimes measure ten feet in height.	12.00
<i>Selaginella lepidophylla</i> —Resurrection plant. Mexico	4.00
